Activities

University Centers and Institutions

CENTER FOR POULTRY PRODUCTION

The Center for Poultry Production mission is to attain year-round sustainable production starting from egg production. The center will have the ability to provide capacity development to enhancing small-scale farmers towards a reliable market of high-quality farm products.

ZAMZAM TECHNO PARK

Zamzam Techno Park is an innovation, science and technology park dedicated to becoming the center for designing high added value product development, foster innovation and develop businesses.

The Zamzam Techno Park will foster entrepreneurs to develop their innovative ideas into reality. The Mogadishu Innovation Park will be the early-Stage Technology Development Zones (TDZ).

Center for Sustainable Agriculture and Environmental Studies

SAES is a multidisciplinary institution specializing in Sustaining Agricultural Production, Food Systems Innovation, and environmental research. The center will support the agriculture and livestock industry in Somali to make the national agriculture and livestock production more profitable, competitive, and resilient through Smart Practices.

RIC- Research and Innovation Center

Research & Innovation Center (RIC) is the university division of the research and innovation activities with the mandate to explore knowledge and conduct new research. RIC primary focuses on research, publications, consultations, and training towards smart society transformation.
